What do elite athletes and women in operational roles have in common? More than you might think. Both thrive under pressure, lead with confidence, and overcome barriers in high-stakes, often male-oriented environments.

Join the NAWO QLD Committee and QUT School of Management for a powerful panel event that dives into the shared mindset and skills driving success—on the field and in the workplace.

Hear from a high-performing female athlete and industry leaders as they explore resilience, adaptability, and what it takes to lead with impact.

Don't miss this honest, energising conversation about performance, purpose, and leadership.
