

# When I Grow Up: Pathways and Possibilities in Operations

THURSDAY 21 AUGUST @ 5:30PM

Thinking about your future? Join us for an immersive event designed for young people, especially women, who are curious about where a future in operations could take them.

Hosted by the National Association of Women in Operations (NAWO), this isn't just a talk. It's a chance for young people to ask questions, explore career ideas, and imagine themselves in future roles.

 **Panel Talk:** Hear from inspiring women on their vibrant operational careers.

 **Mini Expo:** Meet professionals from a range of companies, including event sponsor Bunnings, BlueScope, Fortescue, WesCEF and Woodside, plus apprenticeship support with MEGT.

This event is designed to spotlight STEM career paths for girls; however, it's relevant for boys too, and all genders are welcome to attend.

**Bonus:** there's the chance to apply for a job with Bunnings on the night! Take this opportunity to explore holiday or after school work.

**To register, scan the QR code or go to [nawo.org.au/events](https://nawo.org.au/events)**
